

EVOLUTION OF A CONVICTION

- Step (1) That is a destructive and divisive heresy!
(2) That is the most ridiculous thing I have ever heard!
(3) I see what you are driving at but vigorously disagree!
(4) Some of what you say has merit and I might just be wrong.
(5) I see where I was wrong; now I believe it the way you do.
(6) That's the way I've always believed it !!!!!
-

TRUTH OR CONSEQUENCES

"I can't believe that this is the truth!"

There are times in our lives when we come across a statement or a position which we just cannot accept as being truth... But remember:

Truth never looks like truth when a person.....

- (1) Looks at it through traditions long accepted.
- (2) Views it through pre-conceived ideas and opinions.
- (3) Studies it overshadowed by personal animosity or bitterness toward the person who said it.
- (4) Evaluates it upon the human scale of rationalism.
- (5) Compares it with what the majority of people accept.

Truth is always truth, is fixed and constant, even though, to the heretic, it appears as heresy!

Yours for Truth and Freedom..... Horace Hooper
